

8/26/74

Memorandum 74-39

Subject: Budget for 1975-76 Fiscal Year

Attached (gold pages) is a draft of a staff proposed budget for the 1975-76 fiscal year. The Department of Finance has directed that we prepare a budget that does not exceed \$225,684, and the proposed budget is for this amount.

We have not received any response to the Commission's request that the salary level for the position of the Executive Secretary be reviewed. You will recall that the top of the salary range for Assistant Executive Secretary is higher than the salary level for the position of Executive Secretary. When the Department of Finance has made a decision on this request, we will adjust the budget accordingly. For the 1974-75 fiscal year, we are planning to cover any increase in the salary for the position of Executive Secretary out of the funds already budgeted for 1974-75. For the 1975-76 fiscal year, we will add the amount of such increase to the proposed budget for 1975-76.

We are under considerable pressure during the current fiscal year in operating expenses. We have equipment expenditures of \$3,861 which were not originally budgeted (\$630.00 of this amount is for the purchase of a copying machine, the remainder is for installment purchase of a Mag Card II typewriter). Also, all categories of operating expenses are substantially higher than in 1973-74 as a result of inflation. The same comments are true with respect to 1974-75 except that inflationary increases will be even greater. The Department of Finance has allowed 11% increase in operating expenses for 1974-75 to allow for the inflationary increase anticipated for 1975-76.

### Salary Savings

In order to stay within the amount allotted by the Department of Finance and to budget for operating expenses in a realistic way, we have prepared a budget that anticipates substantial salary savings. We plan to promote Mr. Sterling to the position of Assistant Executive Secretary as soon as he qualifies (December 1974) and have budgeted funds to permit us to promote Mr. Ulrich to Staff Counsel I when he qualifies. We plan to fill the vacant position on the legal staff with a Legal Counsel Range B for the remainder of the 1974-75 fiscal year and then to fill the position at the entry level. We are downgrading one of the clerical positions from Senior Legal Stenographer to Clerk-Typist II Range C. One of our two clerical employees will resign in October 1974, and the position will be filled at a Clerk-Typist II Range C entry level. These anticipated events are the basis on which we have budgeted substantial salary savings.

### Printing

The reports published during 1973-74 reflect expenditures of over \$55,300 for printing. See Exhibit I (pink). The major portion of this expense was paid in prior years in composing the copy for the reports on eminent domain which were published in 1974. We expect substantial printing expenditures during 1974-75 and 1975-76 in printing our recommendations relating to eminent domain, nonprofit corporations, and creditors' remedies. See Memorandum 74-40 (Commission Output 1974-77). We are facing constantly increasing printing costs. We have budgeted on the assumption that we can substantially reduce printing expense by using our Mag Card II typewriter to compose printed pages.

Traveling-in-State

We expect substantial travel expenses in connection with the legislative consideration of our eminent domain recommendations. Moreover, the 1973-74 fiscal year is not typical for meetings, the number of meeting days being significantly lower than in past years:

<u>Fiscal Year</u>	<u>No. of Days of Meetings</u>
1971-72	30
1972-73	24
1973-74	21
1974-75	10 (first half of year)

We may find it necessary to meet more days during the calendar years 1975 and 1976 as we consider problems arising in connection with our eminent domain proposals and also attempt to put together a legislative program for the 1977 session.

Consultant Services

Because of the need to cover printing costs and equipment costs, we have not been able to budget any significant amount for consultant services during 1975-76. Yet we have lost a senior member of the legal staff, and this is bound to have a significant adverse effect on staff production that might be filled to some extent by consultant services. (See Memorandum 74-49, wherein the staff recommends that most consultants be paid on the same basis as Commissioners (limited travel expenses plus \$20 a day for attending meetings). Whether consultants will be willing to serve on this basis is unknown at this time. If we can save anything on printing expense during 1974-75 and 1975-76, we will transfer it to consultant services.

Equipment

The budgeted amounts for equipment are fixed by a four-year purchase contract we have made to purchase a Mag Card II typewriter. This typewriter is an essential element in our plan to significantly reduce our printing expenditures. We plan no other expenditures for equipment.

Staff Recommendation

The staff recommends Commission approval of the proposed budget attached. We believe the funds allocated by the Department of Finance will provide sufficient funds to permit the Commission to operate during 1975-76 without any substantial adverse effect on the existing program.

Please review the first portion of the budget--entitled "Program Objectives and Description"--and give your suggested editorial changes to the staff. We have an opportunity to revise this material since the amount of material of this nature is to be substantially reduced in the next budget.

Respectfully submitted,

John H. DeMouilly  
Executive Secretary

## CALIFORNIA LAW REVISION COMMISSION

Program Objectives and Description

The primary objective of the California Law Revision Commission is to study the statutory and decisional law of this state to discover defects and anachronisms and to recommend legislation to effect needed reforms.

The commission consists of a Member of the Senate appointed by the Committee on Rules, a Member of the Assembly appointed by the Speaker, and seven additional members appointed by the Governor with the advice and consent of the Senate. The Legislative Counsel is an ex officio nonvoting member of the commission.

The commission assists the Legislature in keeping the law up to date by intensively studying complex and controversial subjects, identifying major policy questions for legislative attention, gathering the views of interested persons and organizations, and drafting recommended legislation for legislative consideration. The efforts of the commission permit the Legislature to devote its time to determining significant policy questions rather than having to be concerned with the technical problems in preparing background studies, working out intricate legal problems, and drafting needed legislation. The output of the commission thus permits the Legislature to accomplish needed reforms that the Legislature might otherwise not be able to effect because of the heavy demands on legislative time. In some cases, the commission's study results in a determination that no legislation on a particular topic is needed, thus relieving the Legislature of the burden of devoting its time to the study of such topic.

At the 1973-74 session, three resolutions and 14 bills were introduced upon recommendation of the commission. All of the resolutions were adopted; nine of the bills were enacted, two in 1973 and seven in 1974. The seven bills enacted in 1974 (which added, amended, or repealed approximately 1,100 sections) dealt with a wide variety of subjects including creditors' remedies, landlord-tenant relations, privileged information, special improvement acts, and rights of nonresident aliens.

The commission, during 1974, published approximately 1,000 printed pages of tentative recommendations relating to condemnation law and procedure and plans to submit a series of bills on this subject for enactment by the 1975-76 legislative session. Other major topics now under active study by the commission include nonprofit corporations, enforcement of judgments, partition of property, and child custody and adoption.

The commission may study only topics that the Legislature by concurrent resolution authorizes it to study. The commission now has an agenda of 17 topics and will request that the 1975 Legislature authorize it to remove one of these topics from its agenda, legislation relating to this topic having been enacted upon recommendation of the commission.

Authority

Section 10330 of the Government Code.

BUDGET SUMMARY

	<u>Actual 1973-74</u>	<u>Estimated 1974-75</u>	<u>Proposed 1975-76</u>
<b>PERSONAL SERVICES</b>			
Total, Authorized Positions	133,047	153,843	157,419
Estimated Salary Savings	<u>---</u>	<u>(13,735)</u>	<u>(15,321)</u>
