Subject: AB12 Beneficiary Needs

Please recommend to the Secretary of State to allow home owners to deed their property directly to their heirs without probate or a trust.

We senior citizens have worked very hard all of our lives to own our own homes, and our children deserve to benefit from this, so our savings do not go to lawyers! Thank you.

Re: Beneficiary Deeds

I was delighted to read your January 31, 2006 Memorandum 2006-5 Beneficiary Deeds (Discussion of Issues). I always tell people that the California Law Revision Commission does excellent work, and has for over 50 years.

I also tell people that the CLRC welcomes Citizens' input. I encourage them to write a letter, or sign a petition requesting "that the Commission recommend to the California Legislature the enactment of a new law that would allow Californians to transfer real estate to a beneficiary on the death of the property owner without probate".

I had no idea that the petition would become so popular. I believe this popularity stems from the fact that each of us would like to believe that we have some control over our lives.

Enclosed you will find 40 petitions signed by 173 citizens. I have told the signers their petition will become a part of the legislative history of Beneficiary Deeds, and the report the CLRC will send to the Legislature in 2007. I believe this is accurate.

I believe the signers want to send a message to those who oppose the concept of a Revocable Transfer-on-Death Beneficiary Deed. I believe the signers want to send a message to the Legislature by writing to the CLRC.

I want you to know I am a self-funded lobbyist. When I tell my sons and daughters I am spending their inheritance, they say "Go for it Mom, go for it". My only agenda is to help the Cash Poor - House Rich homeowners.

Thank you,

Mary Pat Toups
